ASHUTOSH

Electronics Engineer | Engineering, Testing & Design

Prayagraj, Uttar Pradesh, India | +91-9264935222 | work.ashutosh1873@gmail.com
linkedin.com/in/ashutosh1873

PROFESSIONAL SUMMARY

Electronics Engineering graduate with a foundation in electronic circuits, RF and microwave design, measurement, simulation, and programming. Experienced in academic design projects and technical research, including microstrip filters, antennas, and IoT-based systems. Familiar with Keysight ADS, COMSOL Multiphysics, MATLAB, Python, and electronic laboratory instruments such as CRO and VNA. Seeking an entry-level opportunity in electronics, engineering design, testing, quality, or technical operations where analytical skills and a hands-on learning approach can support reliable product development and organizational goals.

EDUCATION

M.Tech, Cyber Physical Systems | Motilal Nehru National Institute of Technology (MNNIT), Prayagraj
2026 – Discontinued

B.Tech, Electronics Engineering | Institute of Engineering and Rural Technology (IERT), Prayagraj, AKTU Lucknow
2021 – 2025 | CGPA: 7.96/10

Class XII (CBSE) | 2020 | 95%
Class X (CBSE) | 2018 | 86%

TECHNICAL SKILLS

Electronics & Design: Electronic circuits, RF and microwave components, microstrip filters, patch antennas
Simulation & Analysis: Keysight ADS (Advanced Design System), COMSOL Multiphysics, MATLAB
Programming: Python, C, Java
Testing & Laboratory: Digital multimeter, Cathode Ray Oscilloscope (CRO), Vector Network Analyzer (VNA)
Databases & Web: MySQL, MS Access, HTML, Google Apps Script, Google Forms, Google Sites
Documentation: LaTeX, Microsoft Office

PROJECTS

Single-Band Narrow Band-Pass Filter Design — Designed a narrow band-pass filter using an open-loop stub-loaded triangular ring resonator.
Employee Management System — Developed using Java and MySQL.
Café Management System — Developed using Java and MySQL.
Blood Bank Management System — Developed using Python.
Library Management System — Developed using Python and MySQL.
Project Data Acceptance and Display Portal — Created a web-based portal using HTML and Google Apps Script/Google Forms.

SELECTED PUBLICATIONS

- “Design of Single Band Narrow Band Pass Filter Using Open Loop Stub Loaded Triangular Ring Resonator,” Journal of Systems Engineering and Electronics, 2025.
- “Design of UWB BPF Using Diamond Shape Microstrip Resonator Nestled Between Interdigital Structure,” Journal of Systems Engineering and Electronics, 2025.
- “Design of Ultra-Wideband Bandpass Filter Using Inter-Digital Structure with Notch,” Journal of Systems Engineering and Electronics, 2025.
- “Weather Monitoring System Using Internet of Things,” i-manager’s Journal on Electronics Engineering, 15(2), 2025. https://doi.org/10.26634/jele.15.2.21536
- “Design of Multiband Microstrip Patch Antenna Using Circular (E-Shaped) Structure for Wireless Applications,” Journal of Systems Engineering and Electronics, 2025.

COMPETITIVE EXAMINATIONS

- GATE 2026 (Electronics and Communication): Qualified | Score: 349 | Marks: 26.33
- UGC-NET December 2025 (Electronics Science): Qualified for Ph.D. admission | Marks: 162
- UPSC Engineering Services Examination 2026 (Electronics and Telecommunication): Qualified Preliminary Examination; appeared in Main Examination.

LEADERSHIP & RESPONSIBILITIES

- Student Representative, B.Tech: Represented the class and student body.

- Head Boy and Discipline Squad Head, Class XII (2019–20); Vice Head Boy, Class XI; House Captain, Class X; Prefect, Classes VIII–IX.

CERTIFICATIONS & LANGUAGES

Certifications: Introduction to Programming with MATLAB (Vanderbilt University, Coursera); Crash Course on Python (Google, Coursera); Python for Beginners, HTML and SQL (SoloLearn).
Languages: Hindi (Native), English (Proficient).
